

**ultrateam ultegra****frame kit**

frame	Slyway	AL 7020	1700 gr
front boom	Slyway	AL 7020 L 360 mm	380 gr
front fork	Slyway team 650 carbon	T700 Carbon fiber	350 gr
seat	Slyway Morpheus	AL 6082	875 gr
seat post	Slyway V-post	AL 7020	200 gr
stem	Slyway Carbon Attach	Carbon Fiber	250 gr
handlebar	integrated		
headset	Tange	1" 1/8	
bolts	inox		
colour (gloss)	red-white-green		

**drive train**

cranck	Stronglight Pulsion CT2	53-39	430 gr
bottom bracket	Stronglight Twister SL	ISIS drive	180 gr
cassette	Shimano Ultegra	10 speed 12-27	235 gr
rear derailleur	Shimano Ultegra		209 gr
front derailleur	Shimano Ultegra		89 gr
shifters	Shimano Duraace Time Trial		195 gr pair
chain	Shimano Ultegra	10 speed	2,4 gr / link
pedals	not included		

**brakes**

brakes	Shimano Ultegra		330 gr pair
brake levers	Tektro RL 720		90 gr pair

**wheel set**

front wheel	American Classic Sprint 350	28 spokes 2/1.8/2	570 gr
rear wheel	American Classic Sprint 350	32 spokes 2/1.8/2	770 gr
tires	Schwalbe Stelvio	650x23c 23-571	430 gr pair
tubes	Schwalbe extralight SV11		120 gr pair
rider weight limit 100 kg 220 pounds			

**price**

SRP bike	€ 3.460
SRP frame kit	€ 1.752

**options**

seat pad	Ventisit open structure	400 gr	€ 75,0
seat pad	Slyway light set	100 gr	€ 11,7
seat pad	Slyway comfort set	400 gr	€ 16,7
seat cover	Threeface	120 gr	€ 24,2

**frame upgrade**

seat post	Slyway X-post carbon	130 gr	€ 167,0
-----------	----------------------	--------	---------

**bike upgrade**

crank set	Extralite *	593 gr	€ 235,0
chain	KMC X10SL		€ 36,0

- \* E-Bone QRC: 3D CNC integrated crancks (489 gr), SSP design (pat.Pending), integrated chainring spider, oversize axle and bearings  
 BTC 110 mm (compact), black anodized with laser etched graphics  
 Octa Ramp RC: 50-34 chainring set (95 gr), CNC AL 7075 T6 Teflon coated surface, 5 shifting ramp  
 Extra Bolts 1.1: Chainring bolts set (9 gr), CNC AL 7075 T6, self locking nuts  
 (complete set: crancks-axle-spider, cups & bearings, chainrings, bolts)

## **geometry**

wheel size	650c
wheel base	43" 110 cm
head tube angle	70°
seat angle	25-40°
seat height	24.5" 62 cm
medium BB height	32" 82 cm
size	X-seam (in / cm) 37-46 / 95-118

riders with X-seam lower then 37" / 95 cm have to order optional short boom

riders with X-seam higer then 46" / 118 cm have to order optional long boom

## **IMPROVED GEOMETRY**

1. The new Slyway recumbent bikes frames have a shorter wheel base for a better control in corners.
2. Shorter rear frame, and smaller rear droppouts, in order to save weight and improve geometry.
3. Seat position is set a little back respect to the old frame. This give you a better weight distribution and great stability.
4. Morpheus seat is equipped with a new multi-pivot system.

## **THE BEST ERGONOMY**

1. New Morpheus seat multi-pivot system (9 positions) allow you to adjust the bottom bracket - seat difference in height: this is very important to push on pedals in the best way.
2. Seat angle is also adjustable from 25° to 40° with 9 seatpost pivot point.
3. Morpheus seat feature an upper sliding section for perfect size adaptability and best comfort.

## **GREAT MECHANICS**

1. New Morphues seat is 125 gr lighter than previous edition.
2. V-post CNC seatpost with an improved design, is 100 gr lighter than previous edition.
3. Bike frame is designed for a smooth and low friction chain line.
4. Rear dropout feature a replaceable rear derailleur hanger.
5. Long front derailleur tube, allow you to use oversize chain rings.
6. Aluminium alloy eccentric ring, allow you to micro-adjust the front derailleur position.
